

iRacing Setup Installation Guide

PureSetup Official Guide

Installation Steps

Step	Instruction
1	Download the PureSetup datapack.
2	Extract the .zip file using Windows extractor, WinRAR or 7-Zip.
3	Locate the setup files (.sto).
4	Open the iRacing setups directory.
5	Default path: Documents → iRacing → setups.
6	Open the folder corresponding to your car.
7	Copy the .sto setup files into the folder.
8	Start iRacing and load the setup in the Garage menu.
